# Game on! Let's Build Together

**Jean Roy**, Chairman of the Board of Vents d'espoir, SVP and COO of Kruger Energy Inc. and Real Estate, and Honorary President of the 9th Annual Golf Tournament

Dear partners, donors and allies,

It is my great pleasure to invite you to the 9th annual Vents d'espoir Golf Tournament, held this year under the inspiring theme: *"Let's Build Together."*

For over 12 years, our community has come together with determination and heart to bring to life an ambitious vision: a multifunctional residential complex for individuals living with traumatic brain injuries or motor impairments.

Today, we stand at a pivotal moment. The project is more tangible than ever, and the next steps will bring us closer to a long-awaited milestone. In this context, your presence by our side is especially meaningful.

This day will be much more than a tournament. It will be an opportunity to:

- reconnect with those who have supported this project from the very beginning
- contribute in a concrete way to the services that will soon come to life within the complex
- and celebrate, together, how far we've come—and what lies ahead.

Because beyond the event itself, every gesture matters. Every donation, every contribution, every foursome purchased helps lay another brick in this community-built project.

This is a project shaped by you—and one that will continue to grow, driven by the strength of a committed community.

I warmly invite you to join us for this meaningful and action-driven day.

We look forward to seeing you there.
